

HOpe Centre at Lions Gate Hospital

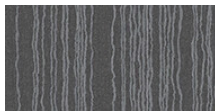

The HOpe Centre on the Lions Gate Hospital campus is the focal point for mental health services in North Vancouver, BC. It includes a 26-bed adult mental health inpatient unit as well as community mental health outpatient services. Forbo's digitally printed Flotex Linear collection offers unique linear designs, each with its own characteristics and ranging from muted and sophisticated colourways to very complex and multi-colour textures. The grey tones of the Flotex Cord combine beautifully with the durable grey Marmoleum floor.
