

Henneman van Hees Ortodontists

With the transformation to dental care practice, this beautiful building from 1900 was brought back to its original state and now fits nicely into this historic part of Breda. A hyper modern practice has been realized on the ground floor.

On the floor a freshly colored Marmoleum Striato has been installed that connects all the spaces. At the reception desk, the sterilization room and the entrance to the staff and meeting room, the red, blue and yellow colors from the floor come back into the walls.
