

Home At Ivy Corner

Home renovators Home at Ivy Corner were looking to convert their basement room into a home office and cosy den area, they turned to our Allura Click Pro luxury vinyl tile to provide the perfect combination of durability and style. They chose the light honey oak colourway, which gives the space a lovely warmth and makes it the ideal place for the family to hang out. The soft toned grain of the light honey oak design complemented the neutral décor of the room perfectly, while the click-together format made installation a breeze.
