

Hostel @Liberty

@Liberty is a mixed hotel&hostel establishment located in the Riga Old City and facing the Monument of Freedom. @Liberty is health-conscious: it is smoke-free, allergy-friendly floor coverings, offers individually adjustable air conditioning, and promotes good sleep (no parties at night). A video surveillance system, controlling front doors as well as common spaces, caters to the personal security of guests. @Liberty has been renovated in 2015 to modern standards. It is wheelchair friendly, with special facilities and a new elevator.
