

## Hotel Theater Figi

Hotel Theater Figi, a family business for over 100 years, is continuing its makeover and renovates all of its 97 hotel rooms. Black and white form the basis of the new style of Figi, but also green, wood and "Ravage elements" are reflected in the interior. The Parisian curls of the world-famous Ravage duo can be seen in the Flotex special in the corridors of the hotel. Allura black oak has been chosen to give the hotel rooms a cozy and modern look. This floor combines the warm, cozy feeling of wood with the unique properties of LVT.
