

Hotel Wake-up

The strength of Interiør Gruppens is to create atmosphere inside hotels. For the Wake-up hotel in Copenhagen, Denmark, they applied Forbo Furniture Linoleum on several furniture pieces, such as desks and cabinets.

"In a public environment, Furniture Linoleum is the best choice. It preserves the color and can be retouched if there are scratches. It's also nice to work on and reduces noise."/>

Christian Skov, CEO, Interiør Gruppen.
