

House No. 1 - OCHENTAYSEISCENTÍMETROS

A high-grade sustainable dwelling House No. 1 - OCHENTAYSEISCENTÍMETROS in Madrid breathes linoleum. The house, designed by Pachon-Paredes Architects, uses Marmoleum for the floors, Furniture Linoleum for the desks and cabinets and Bulletin Board linoleum as wall covering. The house occupies a rectangular plan of 16 m x 9 m and is designed to combine living and working. The building includes patios, terraces and balconies that create open, light filled spaces. The house is energy efficient and the finish with CO₂-neutral linoleum from Forbo contributes to optimal sustainability.
