

**House of Artisans**

House of Artisans is more than a fashion store. It is a new concept in which 10 female fashion entrepreneurs have united. Together they offer 7 different, additional quality products. That way every woman with a fully groomed outfit can go out. Not only a tailored-fit outfit but also with the perfect fit. The store is light and spacious. There is a sleek Allura Flex 50x50 vinyl tile on the floor. White with accents of light pink and gold together with the concrete look floor gives the store a feminine chic look.
