

Hôtel Littéraire Marcel Aymé

The architect responsible for sublimating the literary hotel Marcel Aymé trusted Forbo Flooring Systems for the flooring of the rooms and corridors. He turned to the Flotex range, a flaky textile flooring known for its acoustic properties, walking comfort and ease of maintenance. Flotex flooring offers elegant and original designs that make the floor unique. The effects of materials such as stones give a trompe l'oeil effect. The Flotex floral vision product offers a wide variety of colors and floral patterns creating a warm atmosphere.
