

Impressions Display Home Treeby WA

Impressions home builders in Perth was founded in 1997 with a mission to set well-planned and well-built homes. They are a part of the BGC Group, one of Australia’s largest home builders. Through BGC, Impressions has direct access to top quality products and materials needed to build new homes. Allura Flux Hungarian point luxury vinyl planks white autumn oak with natural colour variation was chosen to achieve a Scandinavian inspired interior. Our unique Hungarian point is a classic design for parquet floors where small individual planks are cut at 45-degree angle for realistic herringbone and chevron design to be created with ease as well as with minimal wastage. The unique features of Allura flex is the ease of replacing if it does get damaged in your home. Simply remove and place a new plank hence why Forbo recommends installing with a tackifier adhesive. Allura flex is 5mm thick with a heavy-duty wear layer will protect scratches and stains and offers best in class performance and appearance retention. Allura flex also has outstanding acoustic performance surpassing BCA/NCC requirement making it ideal for multi-level buildings.
