

Info Biro

The world needs colour and passion, which is why for project Info Biro is chosen to go colourful with 15 dB acoustic vinyl Sarlon. Info Biro is a software company that develops and offers application software solutions. The brand new office building is located in Skopje and has a panoramic view of the city. A total of 450 m² of Sarlon flooring was installed in five different colours. Forbo's Sarlon 15 dB flooring combines good acoustic properties with excellent performance characteristics. The Sarlon collection covers over 90 items divided in Wood, Colour, Material and Graphic designs. All items are also available with 19 dB acoustic noise reduction.
