

Karavella Hotel

Karavella Hotel is located in Riga, in a quiet area by the river Daugava, in only a short ride from the Old Town and the Riga new business district. The hotel was completely renovated in 2011. The port and sea concept represents the architecture and location of the hotel. Light shapes, colors and graphics make every guest feel welcome in this warm design and friendly atmosphere. The comfortable Tessera and Flotex floor coverings contribute to this warm atmosphere.
