

Knowledge and Expertise Center De Donderberg

Every child has talent and dreams: the Donderberg Knowledge and Expertise Center (KEC) helps to achieve them. The Center is a safe place for children and young adults where they are encouraged to use and deploy their unique talents and to push their own limits. The Donderberg Knowledge and Expertise Center is a collaboration between Aloysius Foundation, Mutsaers Foundation and the Wijnberg. The new building was completed in July 2015. The green and grey Flotex Metro flocked floor coverings combine beautifully with the grey Marmoleum Concrete design.
