

Möbeltischlerei Marko Wust

Due to the high demand we created our special branch for Interior Doors which concentrates only on manufacturing custom- made interior doors to highest quality standards. The main focus is on the professional manufacturing of fine interior doors with a plain and timeless design, either to your individual ideas or to your choice from our design concepts. The doors come laminated with Linoleum, veneered with various woods-oiled or varnished- or colour coated in all shades of colours. Just as you choose. Of course all doors can be equipped with fine matching fittings. On demand they also offer a special fixture to prevent warpage and distortion.
