

Magoksu Dental Clinic.

Forbo's eternal bestseller, Marmoleum 3032 mist gray, is a very attractive collection of subtle gray-toned luxurious marble patterns. Even if you look at the entire construction cut, the marble pattern of the Real collection's mist grey is noticeable. It feels like marble, and the surface texture is matte and soft, so it has the uniqueness of marmoleum. Shall we take a look at the construction site in harmony with the entire interior?
