

Maison de repos Domusvi

Close to Lyon, the Domusvi residence is an establishment for the elderly in La Tour-de-Salvagny (69). It has all the comforts of a modern establishment. Its grounds allow residents and their families to relax outdoors, while the living areas are spacious and tastefully decorated. Russo Architects chose to install Forbo Flooring in the residence, and more specifically, Modul'up flooring. It is ideal for withstanding heavy loads and makes it easier to move wheelchairs. The Modul'up installation system is twice as fast as glued-down flooring, with downtime reduced by 80%.

Projekta nosaukums	EHPAD Domusvi
Būvnieks	Groupe Domusvi
Arhitekts	Philippe Russo - Russo Architectes
Iekļāšana	Ivan Aubonnet
Adrese	La Tour de Salvagny
Datums	2021
