

Mediateka - Biblioteka, Krosno Odrzańskie, Poland

The designed facility with an area of 450 m2 was divided into 4 zones: a children's area, a media library with a reading room, an adult library and a small cafe. Each zone has its own color. The inspiration for creating interior colors was the logo of the city of Krosno Odrzańskie in which the designed object is located. Grzegorz Kasdepke, author of children's and youth literature watches over the yellow part for children. The orange part of the media library features a portrait of Steve Jobs - the visionary and founder of the Apple brand. Agnieszka Osiecka - a poet, writer, songwriter looks at the adult readers' zone. On the floor the LVT Forbo Allura were installed.
