

Mediateka Library

The Mediateka Library in Krosno Odrzańskie in Poland, is divided into 4 zones: a children's area, a media library with a reading room, an adult library and a small cafeteria. Each zone has its own colour scheme. The inspiration for the chosen interior colours was the emblem of the Polish town of Krosno Odrzańskie where the facility is located. Grzegorz Kasdepke, an author of children's and youth literature, watches over the yellow children's part. The orange area of the media library features a portrait of Steve Jobs, the visionary founder of the Apple brand. Agnieszka Osiecka, a famous Polish poet, writer and songwriter, overlooks the adult readers' zone. On the floor a beautiful design of Allura Wood planks has been installed.
