

MoDo Hockey | Häggglunds Arena

In an elite sports association like Modo Hockey, tough rules apply during training and matches. This means that materials and spaces are heavily worn. - Walking with ice skates is like walking with knives on your feet. But the floor holds up really well. The players move around a lot and put stress on the floor, but it lasts and is easy to clean, says Thomas Wågström, materials manager. The floor's acoustic properties contribute to a calm and comfortable atmosphere. Thomas continues: - When you get to the away dressing room, the sound is different. At home, the floor dampens sound. There is a big difference compared to when it is plastic mats. That's why MoDo Hockey has chosen Flotex for over 10 years.

Location Häggglunds Arena, Örnsköldsvik, Sweden

Date of completion Juli 2022

Flooring contractor Elitvaror AB Örnsköldsvik

Photographer Håkan Nordström, Nordström Bild AB

Used Products

Flotex Colour tiles  
Penang ash
