

NHS Tayside Child and Adolescent Mental Health Unit

Four designs and 8 colourways from Forbo Flooring Systems' extensive Marmoleum floor collection have created a durable, design-led, resilient surface flooring solution for NHS Tayside's new Child and Adolescent Mental Health Services (CAMHS) unit. Built in Dundee, the new £8 million facility, which has already been nominated for the Health Facilities Scotland (HFS) Awards 2015, will provide round-the-clock care for young people across the north of Scotland coping with mental health conditions.
