

## Norah Flagshipstore

As a young Dutch fashion brand, Norah is growing fast and now has more than 90 stores throughout the Netherlands and Belgium. Norah Lisse, in collaboration with Your Tailor Mate and Building Retail, has recently been transformed into the new flagship store. The new design is characterized by light colors and soft shapes. The Marmoleum flooring choice not only offers a trendy look but is also durable, easy to maintain and long lasting. Characteristics that fit seamlessly with Norah's values of durability and quality. The choice of neutral gray tones from the Marmoleum Solid collection, such as Stella and Satellite create a tranquil base for the store that allows the clothing to be displayed to its fullest potential. The success of this store design has convinced Norah to expand this concept to all their stores. And of course, we as Forbo Flooring are proud of that.

Projekta nosaukums	Norah Lisse
