

Nuway Tuftiguard classic

Nuway Tuftiguard Classic has recently been installed within a modern office building in Dublin, by the expert installers from Andrew Scollan Matting Systems. Cut into a unique shaped matwell, the classic grey and aluminium aesthetic of Nuway Tuftiguard Classic was chosen to complete the first impression for visitors entering the building, whilst also providing outstanding dirt and moisture retention. As a result, this will reduce the number of accidental slips or falls and protect interior floor finishes.
