

OPERAIS Reims

OPERAIS is a multiplex cinema which has been renovated in Art Deco style, located in the centre of Reims. The architects in charge of the OPERAIS project trusted the products of Forbo Flooring Systems. They chose Flotex, a flocked textile flooring known for its good acoustic properties, walking comfort and ease of maintenance. With the help of the Flotex Lab service, the cinema floor was entirely customized for a snug, Art Deco, retro atmosphere. The Crea'Flotex tool offered high definition custom printing to create a unique place.
