

**Office Compact Kältetechnik GmbH**

Compact Kältetechnik GmbH is a leading manufacturer of energy-efficient, innovative refrigeration systems. The company develops customized solutions for numerous applications, including the food industry, the catering sector, and logistics companies. In 2017, a new office building designed by Seidel+Architekten was constructed in Dresden. Large, light-filled offices have since provided a pleasant working atmosphere. The rooms are equipped with Forbo Flotex floor coverings in tiles and planks.. The high-performance textile construction from Flotex creates a quiet working environment thanks to its excellent acoustic properties.
