

## Opération des Poussots

The "Poussots" stadium is the new headquarters of the Bourgogne-Franche-Comté football league in Dijon. The project was launched in 2017 and offers referee training, for example, as well as other sports-related activities. During its renovation, the Topoïein Studio architectural firm decided to install several types of flooring, including Flotex colour in the meeting rooms to give the room a designer look. In the living areas, Novibat flooring was installed for its acoustic properties. Sarlon trafic flooring was installed in the cafeteria, with a wood pattern, giving the room a warm atmosphere. This type of flooring is ideal for high-traffic areas, as it provides impact noise reduction properties. The league's offices were refurbished with Flotex created by Starck, creating a soothing space conducive to employee concentration. This floor covering has the distinctive feature of having been fashioned by Philippe Starck, a visionary designer who has produced an entire collection for Forbo. The pattern plays with light, shadow and colour.

Projekta nosaukums	Opération Les Poussots
Celtnieks	Fédération Française du Football
Arhitekts	Agnès James - Topoïein Studio
Iekļāšana	Del Toso
Adrese	Dijon
Datums	2022
