

**Panta Rhei, Amstelveen**

It certainly is striking, the interior of Panta Rhei school in Amstelveen. Panta Rhei is a vmbo school community designed by Snelder Architects. Everything about this building exudes creativity, such as the almost white Marmoleum floor and the surprising black poetry texts. The texts were cut from the black Marmoleum Walton using our aqua jet cutting technology. The white Marmoleum color used is no longer in collection, but corresponds to Marmoleum Fresco 3257 edelweiss.
