

Passfield Primary School

Passfield Public School required a flooring solution that offered comfort, durability, and easy maintenance for their classrooms. The goal was to create an environment that supports the diverse needs of students without compromising on safety or design. To meet this brief, Forbo's Surestep Wood safety vinyl was used in classrooms, providing added safety while maintaining a clean, modern wood-look finish. The flooring is easy to clean and ideal for busy learning environments. In addition, Flotex was selected for its unique combination of textile feel and resilient performance. It's highly durable, allergy and asthma-friendly, and slip-resistant in both wet and dry conditions. Together, these flooring solutions deliver the perfect balance of function, safety, and style, supporting a safe, engaging, and inclusive learning experience for the students.
