

Peak Ascent Cycles

An old Edinburgh Woollen Mill store in Buxton was recently transformed into a bike shop to cater for the needs of avid cyclists in the local area. Peak Ascent Cycles also specialises in bike servicing and repairs which in turn, results in dirt and moisture from threads of wheels being rolled into the shop on a daily basis. Recognising the necessity to stop dirt in its tracks and protect the shop's shiny interior floor coverings, Patrick Healy, the owner of Peak Ascent Cycles, had our Coral Duo entrance flooring system installed at the front door. In a Green Bellagio colourway – which is new for 2021 – the vibrant green shade matches the bike shop's brand colours perfectly and reflects its ethos of nature and the great outdoors. Indeed, Coral Duo is proven to stop up to 95% of dirt and moisture from entering a building and can reduce cleaning time by up to 65%.
