

Plantonia Aparthotel

Plantonia Aparthotel is a unique place in Krakow's Salwator, next to the Vistula boulevards. Plantonia is located in a beautiful, revitalized tenement house dated from the end of the 19th century. Aparthotel Plantonia is a combination of the best features of living in an apartment and staying in a hotel. The designers made sure that each apartment functions as a well-equipped home. Plantonia is the first vegan hotel in Poland, with 24 apartments of sizes ranging from 25 to 68 square meters. The interiors were designed by a team of architects from krea.tina office, thereby enabling a fully ranged stock of vegan and ecological products. In a vegan space, it is essential to check and choose the products on a more fare basis. Forbo floor coverings fit perfectly with Plantonia Aparthotel's requirements. They are applied throughout the building, including climate-neutral Marmoleum made with natural materials such as linseed oil.
