

## Reims Showroom

The Reims showroom was modernised in the spring, with a set of 13 flooring references installed in the room to showcase the various Forbo Flooring ranges and decors. You'll be able to choose from a range of sheets, tiles and planks formats, flamboyant colours and more neutral ones, all complemented by personalised furniture using our desktop solution, which allows you to cover your favourite pieces of furniture with linoleum. The whole project was supervised by Cécilia Aouaina, Marketing Director, and Margareth Van Aken, Vinyl Design Manager. The flooring was installed by our Forbo Flooring installation team. This new showroom offers an immersive experience, thanks to books and samples, as well as digital tools such as virtual reality and interactive screens.
