

Restaurant Park - Erlebnis Rheinfall

Image rights belong to SV Group AG. Restaurant Park - Erlebnis Rheinfall is an event venue for weddings, private celebrations, corporate events, and other occasions. The stylishly modernized interior accommodates up to 140 guests, while the terrace, offering an impressive view of the natural scenery of the Rhine Falls, can host up to 200 guests. The operator, SV, is a leading hospitality and hotel management group based in Dübendorf near Zurich. The company is active in several business areas: restaurants for companies and educational institutions, public dining concepts, catering and meal services, as well as hotels under its own brands and as a franchisee of international hotel brands. As part of this unique project, our Eternal digital print flooring was installed as a special highlight to give the space an additional accent. Thanks to the flowing movement incorporated into this digital print design, a perfect harmony is created between the interior space and the Rhine Falls outside.
