

Restaurant Esserei: Gourmet Star, Sursee

In cooperation with the architects Beck Konzept AG, a store in Sursee has been converted into a new restaurant. Since the conversion, the restaurant has been serving several menus daily at fair prices: Fast, tasty and inexpensive is the motto. To offer guests much more than just a meal, the restaurant pampers visitors with an inviting atmosphere. A professional artist was at work here: Tobi Najer created an expressive mural, which invites all the more to linger and enjoy the restaurant. To complement the extraordinary wall design, the Allura design flooring has found its way into the Esserei restaurant. In a braided herringbone design, the jagged course of the planks gives the floor a particularly striking appearance. The length effect of the planks visually enlarges the room with an area of 110 m². The deliberate and daring combination of two designs characterize the room feeling through the strong contrast and exude modernity and liveliness.

Location	Sursee, Schweiz
Date of completion	März, 2020
Building contractor	Arnoldsursee AG, Sursee
