

Restaurant Les Armes de Champagne

Restaurant Les Armes de Champagne is a gourmet restaurant in L'Epine, France. The restaurant has chosen for a unique botanical floor design from Forbo's Flotex Vision flocked flooring collection, that fits perfectly with the rustic modern interior. To enhance the botanical design, the restaurant has also printed the pattern on the dishes and the waiters' clothes!

In other parts of the restaurant Allura Wood vinyl tiles in hungarian point size have been installed. The combination of black and wood color tones really gives a beautiful floor design.
