

Restaurant Tekuila

The student restaurant Tekuila has undergone a complete renovation. The designer aimed to create a warm look for the floor. She was fascinated by the naturalistic variation of the Allura autumn oak floor pattern, which gives the space a natural and vivid look. A dark colour accent was chosen for a part of the floor area to mark out a distinct area among the different zones of the restaurant interior. The Allura luxury vinyl tiles flooring feels comfortable underfoot and is also quiet, which contributes to a relaxing environment.
