

Restaurant, la Potinière

The architect in charge of the renovation project of the restaurant La Potinière called on Forbo Flooring Systems for the flooring. She has selected a quality flocced textile flooring: the Flotex. This flocced textile flooring is known for its acoustic properties, walking comfort and ease of maintenance. Thanks to the Flotex lab service, the floor of this restaurant has been fully customized. The Créa'Flotex tool offers high-definition, custom-made printing to create a unique location.
