FLOORING SYSTEMS

creating better environments

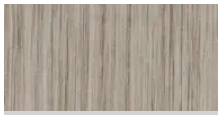

Saint-Luc University Clinics

The Institute of Psychiatry and the King Albert II Institute at Saint-Luc University Clinics are specialized centers providing high-quality care. The Institute of Psychiatry focuses on mental health, while the King Albert II Institute is dedicated to oncology, covering diagnosis, treatment, and patient follow-up. As part of a university hospital, they combine patient care, research, and education in a professional clinical environment. Read and view the entire project here (including video)
