

Skaga Venture

Skaga Venture is the place for relaxation and adventure. It is a new ultramodern indoor Family Entertainment Center in Schagen, The Netherlands, where you can kart, laser game, jumping a trampoline, play VR and arcade games, but also enjoy a drink and a bite. All this in a brand new beautiful and sustainable building! Each space has its own atmosphere with a matching flooring solution. For example, a combination of Allura Flex LVT with Flotex Vision flocked flooring has been chosen for the lobby. On the show staircase Marmoleum flooring is applied, and in the indoor jungle playground our robust, hard-wearing Needlefelt flooring is installed.
