

Skanstes City offices

Skanstes City is a brand new, multimodal campus that provides retail areas and office spaces to many small and large businesses. The Skanstes City believes that the office today is not a coercive tool to control employees, but a convenient, practical and pleasant place to go to work in simpler and more efficient conditions than at home. The Skanstes campus has many public spaces with great design and dedicated recreational areas. Forbo's Sarlon acoustic vinyl, Tessera Cloudscape carpet tiles and Flotex flocked floors provide a professional and modern look to the various office spaces and contribute to a pleasant working environment.

Location	Riga, Latvia
