

**Ski Pass, Serre-Chevalier**

The architect in charge of the Serre Chevalier Ski Pass project called on Forbo Flooring Systems to choose the flooring. He selected the flotex, a flaky textile flooring known for its acoustic properties, walking comfort and ease of maintenance. The chosen product is part of the unique flooring collection : Flotex Sottsass. The Sottsass collection is the result of a close collaboration between Forbo Flooring Systems and the Italian design studio Sottsass Associati. The selected design has the following characteristics: irregular shapes, apparently random and organic before "optical" features.

Projekta nosaukums	Ski Pass - Serre-Chevalier
Adrese	Serre-Chevalier - 05
Arhitekts	Nicolas DOUCET
