

Smögens Hafvsbad

Smögens Hafvsbad became a place for recovery, recreation and well-being in the summer of 1900. A former spa with 8 rooms and an employed doctor. Today, with 76 hotel rooms spread over two hotel buildings, a large conference department, a spa with a wide range of treatments, pools and saunas, Smögens Hafvsbad is a well-reputed facility that offers relaxation in combination with good food and drink. At the turn of the year 2014/15, the hotel management chose to carry out a major renovation. Despite a number of floor options, one of them was the obvious choice, thanks to its unique features - Forbo Flooring Systems, Flotex. "Choosing Flotex is like an insurance, because you know this floor will last. It is a clear advantage that the carpet still looks like new, with no further action than the daily cleaning.", Nils Folkesson, Hotel Manager, Smögens Hafvsbad.
