

Solaris, Clamart

The Solaris Tower, located in Clamart, is the first concept of positive energy office (BEPOS). This project was achieved in 2014 after 20 years of research and thinking around its concept. Modern with its central garden and its roof covered of solar panels, the Solaris Tower is meant futuristic. To cover its 27,960 m² of floor, SERCIB, the developer, has trusted Forbo and its innovative collections.
