

Sports Academy MBO Amersfoort

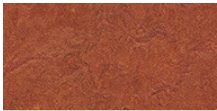

The Sports Academy Amersfoort is part of the MBO Amersfoort located in The Netherlands. On the campus you will find all sorts of sport facilities such as fitness, squash, a gymnastics and dance hall and a climbing wall. On the request of Housing Coordinator Tjitte Boersma, our designer Michiel van Nieuwland has created a sports theme floor design for all classrooms. "Everyone here has something to do with sports and therefore you want the entire organization to radiate that feeling," said Johan Timmerman and Okke Looijen, team leaders at the Sports Academy. The existing carpet flooring has been replaced by Marmoleum flooring in the entire building. "A versatile and durable floor covering that brings a lot of energy. Our students used to say that the classrooms were boring, but now they find it exciting and refreshingly beautiful. A nice compliment for a successful renovation."

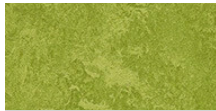

Project name	Sportacademie Amersfoort
