

## St Albans Library

Ingleton Wood LLP was recently tasked with refurbishing St Albans Library into a modern and inviting facility that reflected the ambitions and values of Hertfordshire Libraries. Using a creative combination of Forbo Flooring Systems' Tessera carpet tiles, the contemporary colour palettes and versatile designs within the modular range added a new dimension to the interior scheme. The renovation of St Albans Library, Hertfordshire's busiest library, is part of the council's plans to gradually update all of the libraries in the county. With an improved children's area, IT and study facilities, low-level shelving to overlook the city's skyline, as well as the development of a new CreatorSpace, the flexible library now provides visitors of all ages the opportunity to get creative, develop new skills and borrow books. For the interior design, it was vital that the finishes helped to enhance this vision. Check out our library flooring section to find more inspiration.

Commissioned By	Hertfordshire Libraries
Interior Design	Nicole Flynn, Ingleton Wood LLP
