

St Josephs Catholic Church Takapuna

The honey coloured ceiling and brick walls necessitated a floor that captured these colours (3405 - Granada) but also toned down the visual aspect of the floor (3146 - serene grey in a pixelated random pattern). Added inspiration comes from sunlight filtering through the large rectangular stained glass windows in strong primary colours. It also provided the floor with a strong visual element, with Jerusalem crosses aqua cut at key places where communion is served.

Location	Auckland, New Zealand
Architect	Muir Design
Interior Architect	David Muir
Flooring Contractor	Auckland Quality Flooring
Commissioned by	St Josephs Church Parish Council
Photographer	Donal Murphy
