

TSVB Office

In recent years, TSVB has built up an extensive experience in sanitary, central heating and ventilation works. TSVB carries out work for the private and B2B markets. The companies' most important assets are the strong service and technical know-how. "We are a recognised installation company with a passion for heat and water. Sanitary facilities and technologies are standard needs today and are installed in thousands of homes, residential and industrial buildings around the world. We offer a variety of techniques and solid, durable materials". On the floor 241 m2 LiquidDesign and 9 m2 Coral Welcome has been installed.
