

TZMO Latvia office centre

In the competition organised by the Builders' Association and the Association of Civil Engineers for the best building in Latvia in 2024, the office centre of SIA "TZMO Latvija" in Dreiliņi was recognised. Particularly for being based on natural, sustainable, environmentally friendly, and innovative solutions, with wood being one of the most used materials for the building. It is even more special because it is inspired by the creators' approach to life and values.
