

Table Angus

Angus is black. Angus is a collection of stools and tables from the workshop of master joiner Raphael Pozsgai. Traditional craftsmanship, sustainable materials, contemporary in its design. Angus is manufactured in small batches in Heitersheim, South Baden, at the foothill of the Black Forest. Steel in its original, un-descaled state, oiled oak wood, FSC-certified wood fibre board and a linoleum table top. The generous table height of 90 cm allows for sitting as well as standing at the table. The table is certified with "German Design Award 2017 - Special Mention"

Project name	Auszeichnung German Design Award für Raphael Pozsgai
Location	Heitersheim bei Freiburg, Deutschland
Date of completion	Mai 2016
Photographer	Ralf Jankovsky
