

**Takeda office, Warsaw, Poland**

The Japanese character of the Takeda office in Warsaw, Poland, can be seen in the simplicity of the interior and geometric shapes prevailing in the designed space. A considerable number of veneered elements harmonise perfectly well with the Scandinavian style of furniture and the subdued, pastel colors. The design reflects a delicate, cosy interior referring to a home character. On the floor the Forbo LVT Allura and Tessera carpet tiles flooring solutions were installed.
