

Talent Academy Jos Vaessen KRC Genk

KRC Genk continues to invest in the future. The development and optimal support of young talents is ingrained in the club's DNA. For a decent home building starts with a solid foundation. We have taken this literally when we talk about our new youth complex. On the foundations of the old complex is now a two-storey youth center. A total of 2,400 square meters with many additional spaces to stimulate the activity of the youth. This new complex is named after the founder Jos Vaessen.
