

Tartu Variku School

Tartu Variku School was due for remodeling, and the school decided to use both Flotex and Marmoleum on its floors. Marmoleum Modular tiles were chosen because of the suitable tile format, sustainable properties and the natural look of Marmoleum. Flotex flocked flooring was used in the elementary school classrooms and hallways because of its comfortable feel and excellent sound absorbing qualities.

Nuoroda vieta	Tartu, Estonia
Nuoroda generalinis rangovas	Nordlin Ehitus
